No leader is going to give us peace, no government, no army, no country. What will bring peace is inward transformation, which will lead to outward action. Inward transformation is not isolation, is not a withdrawal from outward action. On the contrary, there can be right action only when there is right thinking and there is no right thinking when there is no self-knowledge. Without knowing yourself, there is no peace.

~ J. Krishnamurti

Table of Contents
